

SELLING AN E-BOOK FROM YOUR WEBSITE

A  kinētiva TUTORIAL

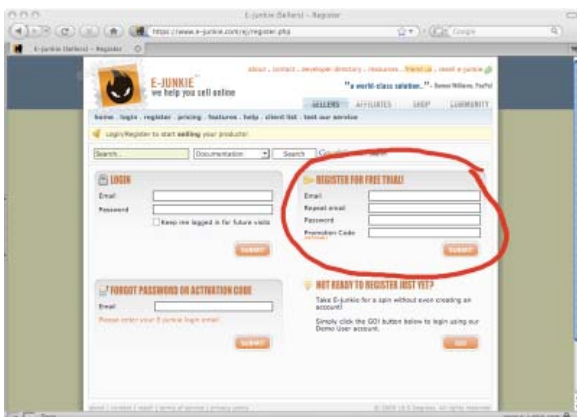

PART 1: SETTING UP YOUR E-JUNKIE ACCOUNT

1

Open your web browser and click [HERE](#) to sign-up for an E-Junkie account.

Click on 'Register'.

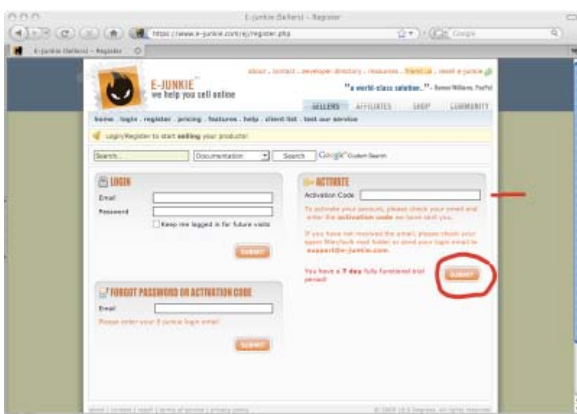

2

E-Junkie offer a free 7 day fully functional trial period allowing you to test drive their service before you decide to pay for an account.

First, enter your details to register for your free trial.

Note: Your products and related data will be removed automatically if you do not start a paid for subscription within the 7 day trail period.

3

E-Junkie will then email you an Activation Code.

Enter the Activation Code and click on 'Submit'.

4

Enter your profile settings and upload your company logo (if you have one).

Enter your PayPal email address (or other payment processor details).

Click on 'Submit'.

5

Your E-Junkie account is now set up.

PART 2: ADDING YOUR PRODUCTS TO E-JUNKIE

6

To start adding products click on 'Add Product'.

Enter your product name.

To enable E-Junkie to send an automatic email with your e-book attached to the buyer, check the box 'Single File Download'.

Enter the price and in which currency you will be selling the product.

Leave all other settings as they are and click on 'Submit'.

7

Click on 'Upload Product File' to upload your e-book or other digital product in order for E-Junkie to deliver it on your behalf.

8

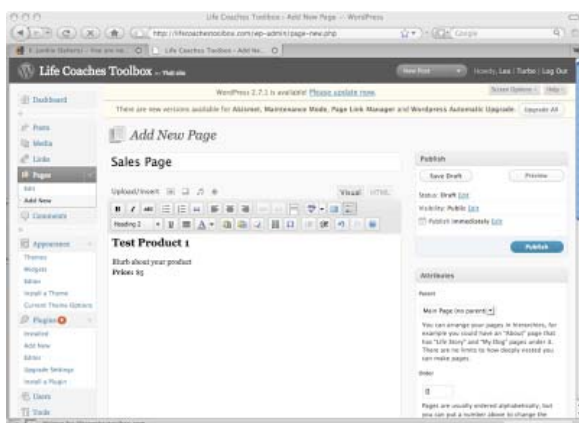

Browse to find your e-book (or any other digital product that you have created) on your computers hard drive and click on 'Upload'.

PART 2: ADDING THE E-JUNKIE BUTTONS TO YOUR WORDPRESS WEBSITE OR BLOG

9

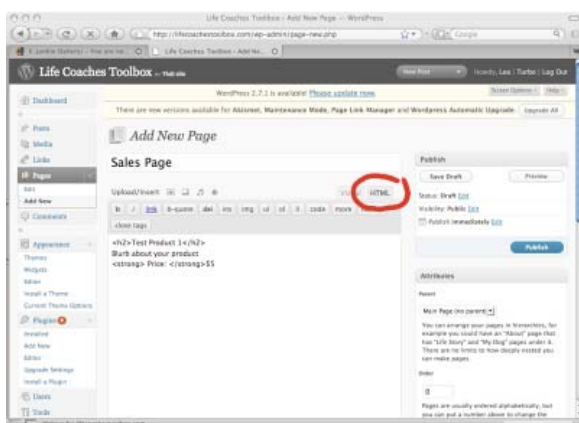

Once your product has been uploaded, return to the main E-Junkie window so that you can copy and paste the code (provided on this page) for your buttons.

10

Log-in to your Wordpress site and open or add a page/blog post from which you will be selling your e-book.

Enter your sales copy as required.

11

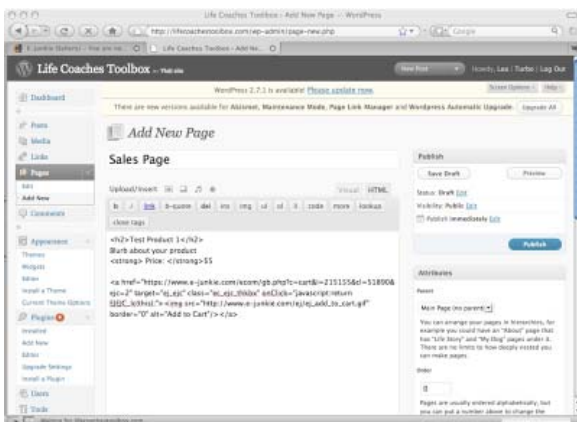

In order to add the code for the E-Junkie buttons, click on 'HTML' to view the code for your page.

1 2

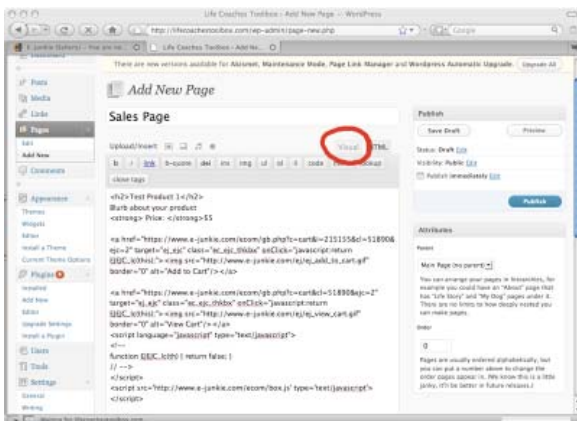

Return to your E-Junkie page and copy all of the code from the 'Add To Cart Button Code' section.

Be sure that you copy all of the code!

1 3

Return to your blog/website page in 'HTML' mode and paste the 'Add To Cart Button Code' from E-Junkie.

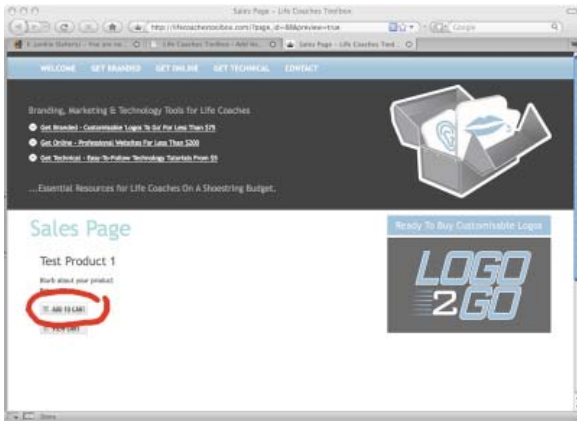

1 4

Next, do the same for the 'View Cart Button Code' and paste it after the previous code.

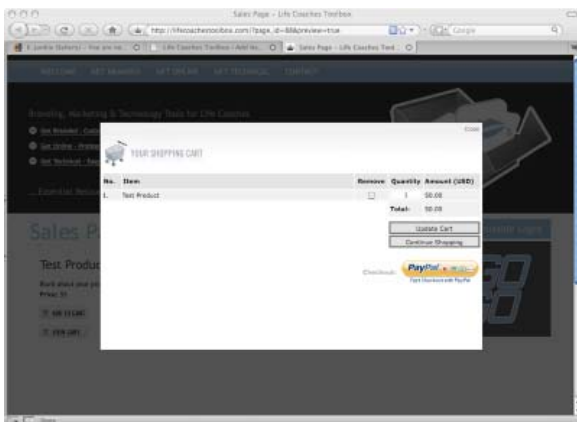

Next click on 'Visual' to check that the button images appear on your page.

Click on 'Publish' to publish your page.

15

Go to the page on your site and click on 'Add To Cart' to check the buttons are working correctly.

16

A pop-up window should now appear with the contents of your cart - showing the name of your product and the price along with a checkout button.

Your e-book (or other digital) product is now available for purchase on your site.

Repeat steps 6 - 14 to add additional products to your blog/site.
